DELAY IN PUBLICATION OF ANNUAL REPORT AND ACCOUNTS

MOBILITYONE LIMITED

Released 16:34:12 30 June 2025

RNS Number : 0464P
MobilityOne Limited
30 June 2025

30 June 2025

MobilityOne Limited
("MobilityOne", the "Company" or the "Group")

Delay in publication of Annual Report and Accounts

MobilityOne (AIM: MBO), the e-commerce infrastructure payment solutions and platform provider, announces that its audited annual report and accounts for the year ended 31 December 2024 ("FY 2024") will not be finalised by the end of June 2025, as stipulated under Rule 19 of the AIM Rules for Companies.

The preparation of the Company's financial statements for FY 2024 has been ongoing. Notwithstanding this, despite the best efforts of all parties, the auditors in the UK require further time to complete their audit. Accordingly, the Company expects the accounts to be published in July 2025.

This delay to the publication of the audited FY 2024 annual accounts means that trading in the Company's ordinary shares on AIM will be suspended with effect from 7:30 a.m. on 1 July 2025 and will remain suspended until the publication of its audited FY 2024 annual accounts.

The Company will release further announcements as and when appropriate.

About the Group:

MobilityOne is one of the leading virtual distributors of mobile prepaid reload and bill payment services in Malaysia. With connections to various service providers across industries such as banking, telecommunications,

utilities, government agencies, and transportation, the Group operates through multiple distribution channels including mobile wallets, e-commerce sites, EDC terminals, automated teller machines, kiosks, and internet & mobile banking. Holding licenses in regulated spaces including acquiring, e-money, remittance and lending, the Group offers a range of services to the market, including wallet, internet, and terminal-based payment services, e-money, remittance, lending, and custom fintech ecosystems for communities. The Group's flexible, scalable technology platform enables cash, debit card, and credit card transactions from multiple devices while providing robust control and monitoring of product and service distribution.
